The Latest on the Farm Seed Situation

American farmers are preparing to produce in 1942 the biggest supply of foods in our history. The need of more food for ourselves and allies will increase the amount of seeds that will be used. Some seeds are already scarce. Our government has purchased over 400 carloads of hardy grasses and legumes for Great Britain and is in the market for more.

The supply of certified seed potatoes in the northeast is 23% less than a year ago.

Secretary of Agriculture Claude R. Wickard has said, "Food will win the war and write the peace."
